## Description

### Hosting & Server Space

- 60GB NVMe Storage
- Redis Caching & Cloud Flare Management - Ensuring speed and indexing
- Unlimited Bandwidth & Traffic
- Enterprise-Level Firewall & SSL Protection
- Automated uptime Checks & Off-Site Backups (Backup retention of up to 14 days)

### Staging Environments

A complete duplicate of the websites will be setup and used for testing, updates, additional feature development & changes. This will ensure that any updates or changes have no effect on the live site until stability is confirmed.

### Backups

Each server makes use of integrated systems, ensuring that backups are stored separately to avoid storage limitations. Further, each server includes;

- Security & SSL Backups
- Firewall updated & PatchStack security patches
- 99.9% Uptime SLA
- Website data & database
- Analytics & user sessions
- Page states and page editing logs
- Entire platform backup (full recovery available)
- Email hosting & management

Each website will have a daily backup stored locally and in the cloud.

### Management, Updates & Maintenance

Up to one hour of back and/or front-end updates included monthly. Any additional time spent after the final launch date will be billed per hour at R 950/hour (excluding initial training and on-boarding).

Allocated time can be used by any of the following;

- Image, text or content updates
- Store notices / notifications
- Automated email adjustments or updates
- Product additions or stock updates
- News/blog uploads
- Layout updates
- Consultations
